Hennepin County History (Minneapolis, County Seat)

Hennepin County was established on March 6th, 1852. The county commemorates Louis Hennepin, a Franciscan missionary, explorer and author. Father Hennepin relocated to Canada in the early 1600s. It was not until 1678 that Father Hennepin joined the La Salle's expedition for exploration of the Great Lakes and the Mississippi. While on the Mississippi River, their expedition was captured by a band of Sioux Indians. While it was frightening for the explorers, they were soon rescued and returned to Canada. In 1683 Louis Hennepin published a book about his explorations. The name Snelling County was introduced by Colonel John H. Stevens, but the name was rejected and the name Hennepin County was retained. Hennepin County is the most populous county in Minnesota. It is located in east central Minnesota and some of its neighboring counties include Sherburne County to the north; Anoka County to the northeast and east; Ramsey County to the east; Dakota County to the southeast; Scott and Carver Counties to the South; and Wright County to the west and northwest. Minneapolis was selected as the county seat and it is also the largest city in Minnesota with 377,392 residents. Today Hennepin County is home to approximately 1,140,988 residents.

BLOOMINGTON

In the spring of 1843 Gideon Pond built the first log home in Oak Grove, what Bloomington was originally named. He established the Oak Grove Mission and welcomed the first settlers, Peter and Louisa Quinn to the area. Later, the Quinns' would be important teachers to the Dakota Indians, showing them important farming practices. In 1851 the Bloomington area was open to settlers, and in 1858 the first town meeting was held. The name was given by the settlers from Illinois. Twelve other states have cities with the Bloomington name, the largest being in Illinois. Today Bloomington is home to approximately 85,172 residents.

Hennepin County Communities

BROOKLYN CENTER

Brooklyn Center is an incorporated village that has always been known as a farming area. It was opened up to settlement in 1851 and in the summer of 1852 the first families began moving into the area, clearing land for farming and building homes. The city of Brooklyn Center was originally located in the southeastern portion of Brooklyn Township, today it is located in the Crystal Lake Township after the town lines were moved. Brooklyn Center was essentially an agricultural settlement and it was not until 1911 that the citizens of Brooklyn Center took legal action to create the Village of Brooklyn Center. Elections were held later that year and 83 votes were cast to elect P.W. Reidhead as the first elected president of the Village Council. Today Brooklyn Center is home to approximately 27,488 residents.

BROOKLYN PARK

The area known as Brooklyn Park today was once part of the Missouri Territory in the early 19th century, which was under a treaty with the Dakota Indians. By 1852, the territory that would become the Brooklyn Township was claimed. In the beginning, trails originated by the Ojibwa were the only means of transportation in and out of the area. By early 1854, the first settlers from Michigan claimed the township, which they named after their home area in Brooklyn, Michigan. Facts about the city: the first school was established in 1854; it was incorporated as a village in 1954 with a population of 3,868; it was established as a charter city in 1969. Today Brooklyn Park is home to approximately 71,394 residents.

DEEPHAVEN

Located near Lake Minnetonka, Deephaven was founded in the 1880s and named in honor of the excellent harbor. In 1882 the Minnetonka Yacht Club was established, which now boasts over 500 members. In 1895 the historic Cottagewood General Store was founded, which has since become a local landmark. Today Deephaven is home to approximately 3,775 residents.

EDEN PRAIRIE

Eden Prairie was settled in 1852 and officially organized in 1858. It was named after a beautiful natural prairie in its southern portion. It was named by Elizabeth Fries Ellet, who gave the name "Eden" as an expression of her admiration for it's beauty. On May 11, 1858 the first town meeting was held, on that same day Minnesota was also officially a state. In the 1880's until the 1960's the population of the city barely changed with only a 1,300 person increase. It wasn't until 2000 that the population swelled and Eden Prairie became a thriving business community. Today Eden Prairie is home to approximately 54,901 residents.

^{*}Populations are approximate.

EDINA

Edina was incorporated in 1888 and was originally called Richfield. Now Edina is named after the Edina Flouring Mill, owned by Andrew and John Craik. They named the mill in memory of their boyhood home of Edinburgh, Scotland. The city retains the name as well as the rich heritage. Edina was once a civil war milling crossroads and currently has many homes listed on the National Register of Historic Places. Today Edina is home to approximately 47,425 residents.

EXCELSIOR

Founded by colonists from New York in 1853, the name Excelsior was derived from the short poem, "Excelsior," written by Henry Wadsworth Longfellow. A streetcar line brought travelers from Lake Harriet in Minneapolis to the shores of Lake Minnetonka as the area was popular for day trips. The community originated as a vacation haven for Twin Cities residents and was home to the Excelsior Amusement Park from 1925 to 1973. Today Excelsior is home to approximately 2,291 residents.

GOLDEN VALLEY

Golden Valley was incorporated in 1886 and was an agricultural community of only a few hundred at the time. It was named for its beautiful valley, which encloses a small lake, that was covered in daffodils. The city was named by William Varner, one of the first settlers to the area. The story says that Varner headed west to find a home site and he came across a hill so high he thought it was a mountain. He climbed it and looked down upon a lush valley, dotted with golden daffodils and a small lake shining in the sunlight. The community was then named Golden Valley. Today Golden Valley is home to approximately 20,281 residents.

GREENWOOD

Greenwood was settled in 1855 and officially organized in 1858. It was platted by Thomas A. Holmes and named after the lush woodlands found in the area. The historic Old Log Theater, Minnesota's oldest professional theater established in 1940, is located here where audiences can still enjoy performances year-round. Today Greenwood is home to approximately 812 residents.

Hennepin County Communities

HOPKINS

Hopkins was settled in the late 1800's as a quaint railway village. It was named after Harley Hopkins, its original postmaster. He was born in 1824, came to America in 1855 and moved to the current Hopkins area. The Hopkins City Hall was built in 1912 and housed the city's police station, jail, city offices, library and fire station. The building was remodeled in 1940 to accommodate the new fleet of fire trucks. The original fire station was torn down in 1965 and a new City Hall, police station and fire station was constructed. Today Hopkins is home to approximately 17,145 residents.

INDEPENDENCE

Independence was settled in 1845 and organized in 1858. Its named is derived from nearby Lake Independence, which was named in honor of its discovery on July 4th, 1854. Independence was incorporated in 1974 and currently houses the Twin Cities Polo Grounds. Today Independence is home to approximately 3,546 residents.

LONG LAKE

First recognized as Cumberland, Long Lake was settled in 1855 and renamed after the local lake. A post office was established in 1856 and by 1875, a hotel, flour mill, general store and social hall were constructed. In 1898 the Minnesota Fruit Growers Association was founded, which promoted local raspberry and strawberry growth. Today Long Lake is home to approximately 1,795 residents.

MAPLE GROVE

The first inhabitants of the Maple Grove area were the Winnebago Indians, but in 1851, Louis Gervais settled in the area. It was named for the abundance of sugar maple forests that were found near the town site. By 1855 the growth of new settlers was so fast, the city was abundant in farms, homes, churches and the first town hall. The first school was constructed in 1860. In 1954 the city was incorporated as a village and then in 1974 Maple Grove became a statutory city. Today Maple Grove is home to approximately 50,365 residents.

MAPLE PLAIN

Settled in 1854 near Lake Independence, Maple Plain was named after the numerous sugar maple trees found throughout the area. In 1868 the railroad arrived and a post office was built in 1871. As early local farmers experienced crop failures, many harvested ginseng and shipped it to markets in China as it was plentiful throughout the Maple Plain area. Today Maple Plain is home to approximately 1,983 residents.

14 Hennepin County | Resident Guide Hennepin County | Resident Guide **15**

MINNEAPOLIS (COUNTY SEAT)

Minneapolis was founded in 1849 by Col. John H. Stevens. Stevens built the first known house of the west side of the Mississippi and organized a township eight years later. The earliest announcement and recommendation of Minneapolis' name came in 1852 from Charles Hoag. Hoag wrote to the editor of the St. Anthony Express and called the city "Minneapolis," a conjunction of Minnehaha and the Greek "polis." Other names, including All Saints, Hennepin, Lowell, Brooklyn, Albion and others were refused. Minneapolis made dramatic changes to combat discrimination in as early as 1886 and in 1968 was the birthplace of the American Indian Movement. Now Minneapolis is a vibrant recreational and cultural metropolis with many notable lakes including Lake Calhoun, Lake Harriet and Lake of the Isles. Today Minneapolis is home to approximately 377,392 residents.

MINNETONKA

Minnetonka was first settled by Simon Stephens and Calvin Tuttle along Minnehaha Creek in 1852. Pioneers were attracted to the lush forests and ample water power, and a mill was established. Factories were then built and the area was one of the largest commercial centers in Hennepin County at the time. The community was named after the nearby lake and soon was a popular summer vacation spot. In 1960 the population of Minnetonka reached 25,000 and in 1968 the city was incorporated. Today Minnetonka is home to approximately 50,081 residents.

MINNETONKA BEACH

Minnetonka Beach was settled in 1872 and in 1883, streets were platted and the community was named. It was the site of the Old Hotel Lafayette in 1882 which made the area a popular summer resort destination. As roads were constructed in 1887, Minnetonka Beach continued to develop and was incorporated by 1894. Today Minnetonka Beach is home to approximately 593 residents.

MINNETRISTA

First recognized as German Home, Minnetrista was first settled in 1854 and organized in 1859. The community was renamed Minnetrista, a Dakota word meaning crooked waters. The Yellowstone Trail, one of the first transcontinental auto routes in America, passed through the community in the early 1900s which attracted many new residents. In 1959 Minnetrista was incorporated as a village and as a city in 1974. Today Minnetrista is home to approximately 5,960 residents.

Hennepin County Communities

MOUND

Named after Indian mounds found throughout the area, Mound began as a resort community with summer homes located along the shores. As rail lines were constructed, the area began to grow and permanent residences replaced vacation homes. In 1946 Mound Metalcraft was established, which produced the famous Tonka toy trucks. Today Mound is home to approximately 9,546 residents.

NEW HOPE

New Hope was established in the early 1900's as a small farming community. The area was originally settled as a part of Crystal Lake Township and soon became home to many family farms. In 1936 Crystal was incorporated, forming a small city and township. but many rural residents in the western half of the township were upset about paying taxes for projects like streets, lighting and sewer systems that they did not use and the community of New Hope was established. Today New Hope is home to approximately 20,873 residents.

ORONO

The Orono area was first settled by Henry A. Brackett, who named the are Orono Point, in honor of an Indian chief. The community was established in 1889 from the southern half of Medina and had a population of 600 by 1900. In 1955 Orono was incorporated and has continued to grow. Today Orono is home to approximately 7,732 residents.

PLYMOUTH

Plymouth was first settled by Antoine LeCounte in 1852 and the community was organized and named in 1858. By 1863 Plymouth was home to schools, churches, hotels and a post office. Its population reached 1,074 by 1880 and as roads were built, Plymouth grew dramatically as transportation improved. Today Plymouth is home to approximately 71,486 residents.

SHOREWOOD

Once part of Excelsior Township, Shorewood was settled in 1853. Named after the ample woodland along the shores of Lake Minnetonka, Shorewood originated as a logging community. It was incorporated in 1956 by local residents to avoid annexation from nearby communities. Today Shorewood is home to approximately 7,426 residents.

16 Hennepin County | Resident Guide Hennepin County | Resident Guide

SPRING PARK

Settled in 1850, Spring Park was named after the medicinal springs found in the area. Streets were platted in 1880 and the community was a popular resort area for residents of the Twin Cities, which housed a top of the line baseball park, dance pavilion and playground. It was the site of the historic Hotel Del Otero, built in 1887, and was also home to Native American ceremonial mounds. Today Spring Park is home to approximately 1,852 residents.

ST. LOUIS PARK

St. Louis Park was originally included in the Minneapolis area. It was incorporated as its own city in 1886 after current land owners, with the help of five Minneapolis businessmen, created the St. Louis Park and Land Improvement Company. They named their business for the up and coming St. Louis Railway. In 1890 St. Louis Park was said to have more than 600 industrial jobs associated with agriculture implement manufacturing. In 1899, it became the home to the world's first ever concrete, tubular grain elevator. The former grain elevator is still visible near Highway 7 and 100. Today St. Louis Park is home to approximately 44,126 residents.

WAYZATA

Settled in 1852, Wayzata was platted in 1854 and incorporated in 1884. The name Wayzata is derived from the Dakota word, "Waziyata," meaning at the pines, the north. The area began as a summer retreat, as tourists were attracted to the pristine landscape of Lake Minnetonka. The historic Lady of the Lake steamer carried passengers across Lake Minnetonka and the Wayzata dock once boasted over 90 various steamboats. Today Wayzata is home to approximately 3,884 residents.

WOODLAND

Originally home to the Native American landmark Spirit Knob, Woodland was settled in 1855 and organized in 1858. The area first consisted of the village of Maplewoods and the Groveland Homeowners Association, which sought to improve the land. The area remained a summer community until 1882 when permanent residences replaced summer cottages. In 1948 Maplewoods residents united with the Groveland Homeowners Association to incorporate the city of Woodland, its name a combination of both areas. Today Woodland is home to approximately 469 residents.

Hunting Safety

All hunters should consider taking an advanced hunter education class to learn the latest hunting techniques along with tips on coming home alive.

Here are five suggestions for a safe and successful hunting experience:

- Get a detailed map of the area you are hunting, review it before you leave, and carry it with you in the field.
- **2.** Carry a compass and know how to use it. Decide ahead of time the direction to head for if you get lost or disoriented.
- **3.** Weather can change quickly in Minnesota, so hunters should carry a simple survival kit and be prepared for an unexpected overnight stay in the field. The survival kit should contain a rope, a knife, water, waterproof matches, an emergency shelter, and first aid supplies.
- **4.** If you are on the water, make sure to wear a personal flotation device (life preserver).
- 5. Know your hunting partners' physical and emotional limitations, as well as your own, and don't push your partners or yourself beyond those limits.

Common Fish Species

Boating Safety

Operating Watercraft

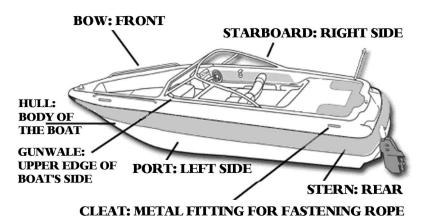

Follow these guidelines to help prevent and prepare for capsizing, swamping, or someone falling overboard.

- Make sure that you and your passengers are wearing life jackets while the boat is moving.
- Attach the ignition safety lanyard to your wrist, clothes, or life jacket.
- Don't allow anyone to sit on the gunwale, bow, seat backs, motor cover, or areas not designed for seating. Also, don't let anyone sit on pedestal seats when craft is not in idle.
- Don't overload your boat. Balance the load of passengers and gear stored on-board.
- Keep your center of gravity low by not allowing people to stand up or move around while craft is in motion.
- In small boats, don't allow anyone to lean beyond the gunwale.
- Turn boat at slow rates of speed.
- Secure the anchor line to the bow, never to the stern.
- Don't risk operating water craft in rough conditions or bad weather.

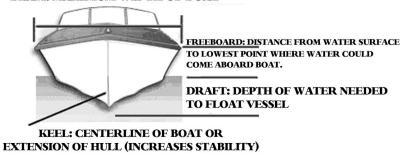

28 Hennepin County | Resident Guide Hennepin County | Resident Guide **29**

Boating Safety

Know Your Craft

BEAM: MAXIMUM WIDTH OF BOAT

Who May Operate a Motorboat (Other Than a Personal Watercraft)

For engines 25 horsepower or less:

Those under age 12 may operate without restrictions.

For engines over 25 horsepower through 75 horsepower:

Those under age 12 must have someone 21 years of age or older on board within reach of the controls.

For engines over 75 horsepower:

No children under age 12 may operate, even with an adult on board.

Other restrictions apply to boat operators 12 to 17 years old:

Operators from 12 to 17 years of age may operate enqines of 25 horsepower or lower with no restrictions.

For engines over 25 horsepower:

Operators 12 to 17 years of age must have:

A watercraft operator's permit, or someone age21 years or older old on board within reach of the controls.

Boating Safety

Flotation Devices

Offshore Life Jackets - Type 1:

For rough or remote waters where rescue may take awhile. Provide the most buoyancy, excellent for flotation, turns most unconscious persons face up in the water.

Near-Shore Vests - Type 2:

Good for calm waters when quick assistance or rescue is likely. Turns some unconscious wearers face up in the water, but not as efficiently as offshore life jackets.

Flotation Aids - Type 3:

Vests or full-sleeved jackets good for calm waters when quick assistance is likely. Not for rough waters. They will not turn most unconscious persons face up. Used for sports, such as water-skiing. Some inflate in water.

Unwearable / Throwable Devices - Type 4:

Cushions and ring buoys designed to be thrown to someone in trouble. Type 4 is not designed to be worn. Not for rough waters - not for anyone unable to hold on to it.

Special Use - Type 5:

Vests, hybrids/others designed for specific activities, for example windsurfing, kayaking, water-skiing. Some Type 5 devices inflate when entering the water. To be acceptable, Type 5 must be used in compliance with their label instructions.

All watercraft must have at least one Coast Guard Approved Type 1, 2, 3 or 5 flotation device that is the proper size for each person on board or being towed.

All devices must be in good condition and easily accessible.

Children under age 10 must wear a device when on board a boat that is underway unless:

in an enclosed cabin or below deck or on an anchored boat that is being used for swimming or diving or passenger craft with a licensed captain.

Along with the above at least one approved Type 4 must be on board boats 16 ft. or longer (except canoes and kayaks) and immediately available.

A Coast Guard approved Type 5 device may be substituted for any other Coast Guard approved device if it meets the same requirements and is noted on the label.

Anyone riding a jet ski or other Personal Water Craft must wear an approved -non inflating flotation device, as well as anyone being towed by a water craft.

ATV Safety

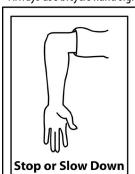

- Read the owner's manual and know your vehicle thoroughly.
- Check your vehicle before you ride.
- Wear protective equipment and clothing.
- Don't lend your vehicle to unskilled riders.
- Supervise young or inexperienced riders.
- Never carry a passenger on vehicles meant for one rider.
- Do not operate under the influence of drugs or alcohol.
- Drive at speeds that are appropriate to trail conditions.
- Stay to the right on trails.
- Stay away from thin ice, open water and wetlands
- Know the weather forecast.
- Make sure headlights and taillights work properly.
- Maintain safe distances between other riders.
- Reduce your speed when riding at night.
- Yield to other motor vehicles and trail users.
- Young or beginning riders are encouraged to take a safety training course.

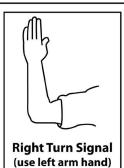

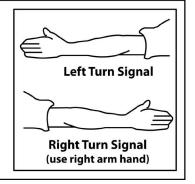

34 Hennepin County | Resident Guide Hennepin County | Resident Guide **35**

Bicycle Safety

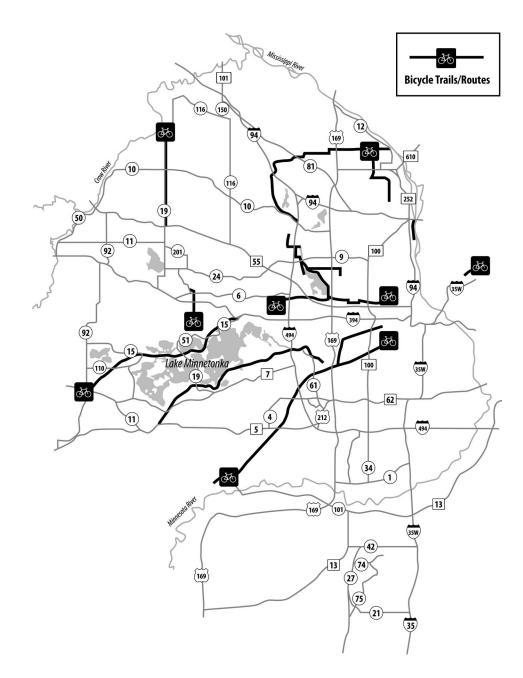

- Always wear a properly fitting bike helmet as most serious injuries are to the head.
- Be sure your handlebars, seat and wheels fit snugly.
- Keep your bike in good shape by checking and oiling your chain, making sure your brakes work properly and maintaining your tire pressure.
- Always ride with both hands on the handlebars except when doing turn signals.
- When leaving a driveway, curb or alleyway always stop and check for traffic in both directions.
- · Cross only at intersections.
- Use the crosswalk to walk your bike across busy intersections and follow the traffic signals.
- · Never ride against traffic. Travel in the same direction as the cars.
- Whenever you can, use bike routes and avoid busy streets.
- Don't ride near parked cars as doors can open and cause accidents.
- Obey all traffic signs and traffic lights.
- When biking with friends, ride in a single file.
- Always pass other bikers or pedestrians on the left and say "On your left!" to make your presence known.
- Always use bicycle hand signals to alert traffic of your changing direction.

Snowmobile Safety

- Do not consume alcohol or take drugs prior to or during your snowmobile trip. Doing so increases your chances of injury or death.
- Slow down and don't cut to the inside of the trail corners. It's dangerous and illegal.
- If you snowmobile at night, don't override your lights.
- Always use the buddy system. Never ride off alone.
- Drowning is one of the causes of many snowmobile fatalities. Whenever possible, avoid the ice.
- Wear sensible, protective clothing designed for operating a snowmobile.
- Use a full size helmet, goggles, or visor to prevent injuries from twigs, stones, ice chips and other debris.
- Avoid wearing long scarves. They may get caught in moving parts of the snowmobile.
- Know the terrain you are going to ride. If unfamiliar to you, ask someone who has traveled over it before.
- Know the weather forecast, especially the ice and snow conditions.
- Be sure your snowmobile is in top-notch mechanical condition throughout the months of use.
- Familiarize yourself with the snowmobile you are driving. Thoroughly read the manual that accompanies the snowmobile.
- Do not pursue domestic or wild animals. That is not the conduct of a sportsman. Report such violations to the nearest law enforcement officer

Common Trail Signs

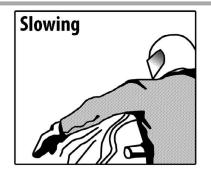

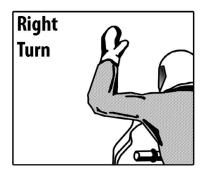

38 Hennepin County | Resident Guide

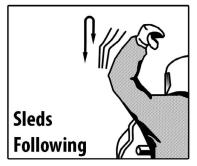

Snowmobile Safety

Communication is an essential part of safe riding. Hand signals are a practical way to communicate between other riders and traffic.

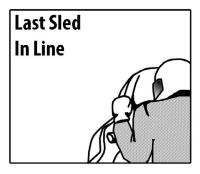

Be sure to give easy to see and clear hand signals when snowmobiling. Hand signals should never be subtle, but always deliberate.

FIRST AID FOR CPR & HEART ATTACK

CPR

CPR is to be administered when a person is not breathing or has no pulse. Be quick to act by remembering the A,B,C's: Airway, Breathing & Circulation.

Airway:

Place the person on a firm surface, on their back. Kneel next to the person's neck and shoulders. Open the person's airway by tilting back the head and lifting the chin.

Breathing:

With the head tilted and chin lifted, pinch the nostrils shut and cover the person's mouth with yours. Give two slow breaths.

Circulation:

Find the hand position on the center of the breastbone. Place the heel of your hand on that position, with your other hand on top of the first hand. Use your upper body weight to push down. Give two compressions per second. Compress the chest at a rate equal to 100/minute. Perform 30 compressions at this rate. Repeat until an ambulance arrives.

HEART ATTACK

Symptoms of a heart attack may include any of the following:

- Uncomfortable pressure, fullness or squeezing pain in the center of the chest.
- Expanded pain in the upper abdomen.
- Shortness of breath.
- Pain or numbness in either arms, shoulders, neck, jaw or teeth.
- Dizziness or fainting.
- Nausea and sweating.

If you or someone else may be having a heart attack - follow these steps immediately:

- DIAL 911
- Chew and swallow Aspirin (unless you are allergic/not allowed to)
- Take Nitroglycerin (only if prescribed)
- Begin CPR if the person is unconscious

FIRST AID FOR BURNS & CHOKING

BURNS

For minor 1st and 2nd degree burns smaller than 3" in diameter: Cool the Burn. Run cool water over the burned area for 5 minutes, or until the pain diminishes. Never put ice on a burn!

Bandage the burn with sterile gauze:

It is important to use loosely wrapped gauze. This will avoid pressure and the bandage protects blisters. NEVER put lotions, vaseline, ointments or butter on burn. Do not break any blisters, which can cause infection.

Take Aspirin, Ibuprofen, Naproxen or Acetominophen to relieve pain:

Minor burns usually heal with these basic treatments. Be aware for signs of infection which may include: increased pain, redness, fever, swelling or oozing. If symptoms develop, seek medical help. Avoid tanning the burned area for at least a year. Protect the area with sunscreen outdoors. Avoid giving aspirin to children.

For 3rd degree burns/all major burns - DIAL 911 DO NOT run cold water over large severe burns - this can cause shock. DO NOT remove burnt clothing. Check for signs of breathing/coughing/movement.

If there are no signs of breathing begin CPR.

Elevate burned areas above heart level, if possible.

Cover the burn(s) with cool, sterile, moist bandages, towels or cloth.

CHOKING

Most people clutch at their throats when choking, an obvious symbol for help. However, if a person isn't giving that signal, be alert for these indications. Inability to talk, difficulty breathing or noisy breathing, inability to cough forcefully, skin/lips/nails turning blue, loss of consciousness.

The Red Cross recommends a "five-and-five" method for first aid: First give five blows between the person's shoulders with the heel of your hand. Second, perform the Heimlich maneuver (abdominal thrusts) five times. Alternate between five back blows and five abdominal thrusts until the blockage is dislodged.

FIRST AID FOR INSECT BITES/ANAPHYLAXIS & POISON SAFETY

INSECT BITES/ANAPHYLAXIS

Anaphylaxis is a severe allergic reaction from insect bites (latex, food and drug allergies can also cause Anaphylaxis). Typical symptoms include hives, the swelling of lips or eyes, swollen throat, drop in blood pressure, light headedness, confusion, nausea or diarrhea. If someone is having an allergic reaction from an insect bite with these symptoms:

CALL 911.

Administer emergency prescription medication. See if the person is carrying special emergency allergy medicine and give it to them according to the directions.

Loosen tight clothing.

Lay the person down. The person should lay down on their back with feet elevated. Turn them on their side if they are vomiting or bleeding from their mouth to prevent them from choking. **If they are not breathing - administer CPR.** Most insect bite reactions are mild and cause no allergic reaction. If stung by a bee, use a straight edged object, like a credit card, to scrape away the stinger. Don't use tweezers - they can pinch more venom out of the stinger. Apply an ice pack to the area and take an over the counter pain reliever.

POISON PREVENTION

Teach your children about poison and how it can look like a food or drink. They should always ask an adult before eating or drinking anything. Have them learn the poison control phone number: 1-800-222-1222 and keep it programmed or posted near all your phones. Here are some prevention tips.

Lock up your poisons and medications. Keep them out of the reach of children, lock them up if possible. Make sure your children understand that medicine is not candy.

Follow directions carefully. Read your labels. Be sure to use and store all poisons and medications properly according to recommendations.

Keep your pets safe from household chemicals, too. Don't allow pets near areas that have just been cleaned with chemicals, such as freshly mopped floors or bleached bathtubs and sinks. Clean up any antifreeze/coolant spills. Pets like the flavor but they can die if they ingest it. Store poisonous foods or plants in areas that your pets cannot access. Call your local emergency veterinary hospital if you believe your pet has been poisoned.
