# PRICE COUNTY HISTORY

rice County was established in 1879 from parts of Lincoln and Chippewa Counties, and was named in honor of William T. Price who served in the United States Congress. Railroad expansion was instrumental in the development of Price County as goods and services were easily transported. Early industry was led by lumbering as logging camps grew to become villages and later cities. Phillips was selected as the county seat and the area continued to thrive. As logging began to slow, residents turned towards agriculture who raised livestock and grew crops. By 1910 the population of Price County had reached 13,795 and the area has since become a haven for recreational enthusiasts. Today Price County is home to approximately 20,689 residents.

\*Populations are approximate.

# PRICE COUNTY COMMUNITIES

#### **CATAWBA**

Catawba began as a lumbering camp upon the construction of the railroad in 1884. Its name was derived from Catawba wine, which was the popular drink of many local railroad workers and lumbermen at the time. By 1910 the area boasted a sawmill, hotel, general store and a variety of specialty shops. Residents of Catawba and nearby Kennan now celebrate Lumberman's Day each year in honor of their first settlers. Today Catawba is home to approximately 149 residents.

#### **KENNAN**

Kennan was established as a railway station and named after K.K. Kennan who platted streets in 1886. The community grew slowly and by 1890 it was home to 20 residents. Early businesses included a sawmill, post office and newspaper office with W.W. Yarham serving as editor. As the sawmill expanded, Kennan continued to develop. Today Kennan is home to approximately 171 residents.

#### **PARK FALLS**

First known as Muskellunge Falls, Park Falls was settled in 1877 as rail lines were completed. The community grew quickly and was renamed Park Falls due to the ample trees and its resemblance of a park. A sawmill, post office, school, newspaper office, church, manufacturing centers, hotels and general stores were thriving by 1900 and its population reached 750. Park Falls was incorporated as a village the following year and then as a city in 1912. The area is now widely recognized as the home to St. Croix rods, established in 1948, which has become one of the world's premier fishing rod manufacturers. Today Park Falls is home to approximately 2.462 residents.

#### **PHILLIPS (COUNTY SEAT)**

Phillips was established as a railway station and named for an officer of the railroad. In 1876 streets were platted and a post office was constructed with Edward H. Alverson serving as its first postmaster. By 1879 Phillips was selected as the county seat and the community continued to expand. Within five years a school, church, lumberyard, manufacturing center and general stores were thriving and Phillips was incorporated in 1891. Today Phillips is home to approximately 1,675 residents.

#### **PRENTICE**

Prentice was founded as a lumbering camp in 1882 and named for A. Prentice who was instrumental in its development. In 1887 the railroad arrived and the area grew quickly. Businesses were established to meet the growing needs of its residents which included a hotel, general store, tannery and an assortment of specialty shops. Fire destroyed most of the business district in 1894, but residents rebuilt resiliently. In 1899 Prentice was incorporated and the area has continued to prosper. Today Prentice is home to approximately 626 residents.

# AYLOR COUNTY HISTORY

aylor County was established in 1875 from parts of Lincoln, Chippewa, Clark and Marathon Counties, and named in honor of William E. Taylor who served as Governor of Wisconsin. Railroad expansion was instrumental in the development of Taylor county as goods and services were easily transported. Early industry was led by lumbering as logging camps grew to become villages and later cities. Medford was selected as the county seat the area continued to thrive. As logging began to slow, residents turned towards agriculture who raised livestock and grew crops. By 1910 the population of Taylor County had reached 13,641 and the area has since become a haven for recreational enthusiasts. Today Taylor County is home to approximately 20,689 residents.

## 7 AYLOR COUNTY COMMUNITIES

#### **GILMAN**

Gilman was settled in 1902 as a rail station named in honor of Sally Gilman, who was the wife of the president of the local lumber company. A mill was constructed which prompted growth and the first hotel was built by J. McSloy soon after. A school followed and streets were platted in 1905. By 1914 Gilman was incorporated and businesses included a general store, newspaper office, cheese factory and an assortment of organizations. Today Gilman is home to approximately 474 residents.

#### LUBLIN

Lublin was established as a lumbering village on land belonging to Henry Putnam, George Burnham and the Eau Claire Lumber Company. Marion Durski was influential in the development of the community as he platted streets and provided land for the railroad. Early businesses included mills, general stores, grocery stores, factories and specialty shops. Today Lublin is home to approximately 110 residents.

#### **MEDFORD (COUNTY SEAT)**

Railroad expansion prompted settlement in 1873 and the community was named after Medford, Massachusetts. Ample timber supplied local sawmills and businesses were established to meet the growing needs of its residents. Medford continued to flourish until a fire destroyed most of the business district in 1893. Residents rebuilt resiliently and Medford was incorporated and selected as the county seat. By 1923 the community boasted one of the largest co-op creameries in the state and has become the industrial center for Taylor County. Today Medford is home to approximately 4,326 residents.

#### **RIB LAKE**

Rib Lake was founded by John J. Kennedy as he arrived to establish the Rib Lake Lumbering Company in 1882. A mill was established which became one of the most prominent mills in all of Wisconsin at the time. Businesses soon included a tannery, newspaper office, hotels and general stores and Rib Lake began to develop. In 1902 Rib Lake was incorporated and has since become a destination for recreational enthusiasts due to the ample lakes and public land found throughout the area. Today Rib Lake is home to approximately 878 residents.

#### **STETSONVILLE**

Stetsonville was settled in 1872 as rail lines were completed throughout the area. Ample timber attracted residents and the first mill was established by Isiah Stetson in 1875. The community was named in his honor and a post office was founded with Peter Liberty serving as first postmaster. By 1914 Stetsonville housed a bank, schools, churches and the area has continued to prosper. Today Stetsonville is home to approximately 563 residents.

## ORNADO SAFETY

## **Precautions:**

- · Know where you can take shelter in seconds.
- · Have a place, everyone knows, to go to after
- THE STORM HAS PASSED.
- FLYING DEBRIS IS THE BIGGEST DANGER DURING A TORNADO. YOUR SHELTER SPACE SHOULD HAVE MATTRESSES OR THICK BLANKETS AROUND, TO PROTECT YOURSELVES.
- DO NOT OPENIYOUR WINDOWS TO TRY & "EQUALIZE THE PRESSURE." THIS ONLY MAKES IT EASIER FOR DEBRIS TO INJURE YOU.
- EASIER FOR DEBRIS TO INJURE YOU.

  ALSO, STAY AWAY FROM WINDOWS!

# Things to Look and Listen For

- CONSTANT ROTATION OF THE CLOUDS BASE.
- · FLYING/ROTATING DEBRIS UNDER THE CLOUD.
- TORNADOS DON'T ALWAYS HAVE A VISIBLE FUNNEL.
- Heavy Rain or Hail followed by either by an eerie Calm in the storm or Rapid wind changes & shifts.
- LISTEN FOR LOUD, CONTINUOUS RUMBLING WITH NO BREAKS IN IT LIKE THUNDER.

# Lightning Distance Tracker

You can figure out how far away the lightning is from you like this...

Count the seconds inbetween the flash of lightning & the crack of thunder.

Divide the number of seconds by 5 & you have your distance in miles.

O SECONDS O MILES 5 SECONDS

20 SECONDS 4.35 MILES 60 SECONDS 13.06 MILES

#### WOLF

Hunting and Trapping | Oct. 15 - Feb. 29, 2016\* Huting with the aid of dogs used for tracking and trailing \ Nov. 30-Feb. 29, 2016\*

\* Season may close early if quota is likely to be reached. See 2015 Wolf Regulations for more information.

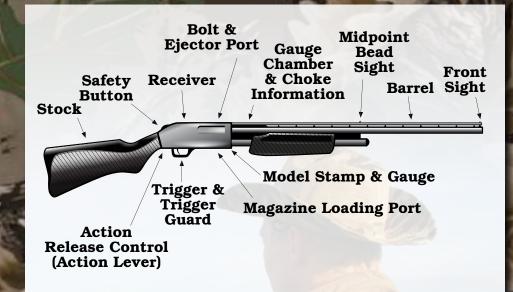

#### SMALL GAME

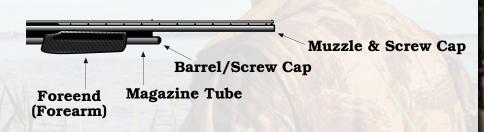

Cottontail Rabbit Northern Zone | Sept. 12 - Feb. 29, 2016 Southern Zone | Oct. 17 (noon) - Feb. 29, 2016 Squirrels (Gray and Fox) | Sept. 12 - Jan. 31, 2016

#### **PROTECTED SPECIES**

Hunting protected species, such as badger, woodchuck, jackrabbit, moose, and flying squirrel, is prohibited. See 2015 Small Game Regulations for more details.

\*Please contact your local DNR office for specific hunting and trapping zone regulations. For general information on firearm safety training call: 1 (888) 936-7463.

All hunters should consider taking an advanced hunter education class to learn the latest hunting techniques along with tips on coming home alive.

Here are 5 Suggestions for a safe and successful hunting experience:

- Get a detailed map of the area you are hunting, review it before you leave, and carry it with you in the field.
- **L.** Carry a compass and know how to use it. Decide ahead of time the direction to head for if you get lost or disoriented.
- Weather can change quickly, so hunters should carry a simple survival kit and be prepared for an unexpected overnight stay in the field. The survival kit should contain a rope, a knife, water, waterproof matches, an emergency shelter, and first aid sup-
- If you are on the water, make sure to wear a personal flotation device (life preserver).
- Know your hunting partners' physical and emotional limitations, as well as your own, and don't push your partners or yourself beyond those limits.

You can purchase hunting and fishing licenses, cross-country ski passes and snowmobile trail stickers through the Electronic License System.

# ICE SAFETY GUIDELINES:

ICE THAT IS 2"
OR LESS
IS UNSAFE TO WALK ON.
STAY AWAY
FROM THIN ICE!

THIN ICE!

ICE THAT IS 4" OR MORE IS OKAY TO WALK ON OR MORE
IS OKAY TO DRIVE
SNOWMOBILES
OR ATV'S ON

ICE THAT IS 12" IS OF MORE IS OKAY TO DRIVE SMALL CARS ON

OR MORE
IS OKAY TO DRIVE
MEDIUM SIZED
TRUCKS ON

15"

THERE IS NO SUCH THING AS 100% SAFE ICE!!!

# Did you know?

- Ice always forms unevenly. It can be 2 feet thick in one spot, and just a few inches thick a couple feet away.
- The most dangerous ice is formed over flowing water. It's especially dangerous near streams, culverts and bridges. Also, the faster the water is running, usually means the weaker the ice will be.
- Snow insulates the ice and slows the freezing process. The added weight
  of the snow reduces the strength of the ice. Also, ice that is closer to shore
  is usually weaker than ice farther out.
- Cracking and rumbling ice isn't always bad. The ice expands and contracts as the temperature rises and falls.
- Fish and birds/wildlife can also effect the ice. Schools of fish can bring warm water from the bottom of lakes, and open holes in seemingly thick ice.
- ALWAYS BE CAUTIOUS WHEN YOU ARE ON ICE!

# PISHING SEASONS

# **Operating Watercraft**

FOLLOW THESE GUIDELINES TO HELP PREVENT AND PREPARE FOR CAPSIZING, SWAMPING, OR SOMEONE FALLING OVERBOARD.

• Make sure that you and your passengers are wearing lifeJackets while the boat is moving. • Attach the ignition safety
Lanyard to your wrist, clothes, or life Jacket. • Don't allow
anyone to sit on the gun wale, bow, seat backs, motor cover,
or areas not designed for seating. Also, don't let anyone sit
on pedestal seats when craft is not in idle. • Don't overload
your boat. Balance the load of passengers and gear stored
on-board. • Keep your center of gravity low by not allowing
people to stand up or move around while craft is in motion.
• In small boats, don't allow anyone to lean beyond the gunwale. • Turn boat at slow rates of speed. • Secure the anchor
line to the bow, never to the stern. • Don't risk operating
water craft in rough conditions or bad weather.

# Who May Operate a Motorboat

(OTHER THAN A PERSONAL WATERCRAFT)

- For engines 25 horsepower or less:
- Those under age 12 may operate without restrictions.
- FOR ENGINES OVER 25 HORSEPOWER THROUGH 75 HORSEPOWER:
- Those under age 12 must have someone 21 years of age or older on board within reach of the controls.
- For engines over 75 horsepower:
- No CHILDREN UNDER AGE 12 MAY OPERATE, EVEN WITH AN ADULT ON BOARD.
- OTHER RESTRICTIONS APPLY TO BOAT OPERATORS 12 TO 17 YEARS OLD:
- OPERATORS FROM 12 TO 17 YEARS OF AGE MAY OPERATE ENGINES OF 25 HORSEPOWER OR LOWER WITH NO RESTRICTIONS.
- For engines over 25 horsepower:
- OPERATORS 12 TO 17 YEARS OF AGE MUST HAVE: A WATERCRAFT OPERATOR'S PERMIT, OR SOMEONE AGE 21 YEARS OR OLDER OLD ON BOARD WITHIN REACH OF THE CONTROLS.

# All Watercraft Must Have...

- AT LEAST ONE COAST GUARD APPROVED TYPE 1, 2, 3 OR 5 FLOTATION DE-VICE THAT IS THE PROPER SIZE FOR EACH PERSON ON BOARD OR BEING TOWED.
- ALL DEVICES MUST BE IN GOOD CONDITION AND EASILY ACCESSIBLE.
- CHILDREN UNDER AGE IO MUST WEAR A DEVICE WHEN ON BOARD A BOAT THAT IS UNDERWAY UNLESS:

IN AN ENCLOSED CABIN OR BELOW DECK OR ON AN ANCHORED BOAT THAT IS BEING USED FOR SWIMMING OR DIVING OR PASSENGER CRAFT WITH A LICENSED CAPTAIN.

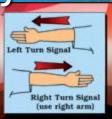

- ALONG WITH THE ABOVE AT LEAST ONE APPROVED TYPE 4 MUST BE ON BOARD BOATS IG FT. OR LONGER (EXCEPT CANOES AND KAYAKS) AND IMMEDI-ATELY AVAILABLE.
- A Coast Guard approved Type 5 device may be substituted for any other Coast Guard approved device if it meets the same requirements and is noted on the label.
- Anyone riding a jet ski or other Personal Water Craft must wear an approved -non inflating flotation device, as well as anyone being towed by a water craft.

# Bicycle Hand Signals

# **Snowmobile Hand Signals**

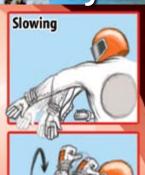

Communication is an essential part of safe riding. Hand signals are a practical way to communicate between other riders and traffic.

Be sure to give easy to see and clear hand signals when snowmobiling. Hand signals should never be subtle, but always deliberate.

Sleds

Following /

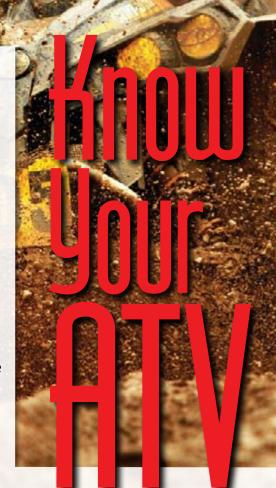

Oncoming

# Read the owner's manua

and know your vehicle thoroughly.

- Check your vehicle before you ride.
- Wear protective equipment and clothing. Don't lend your vehicle to unskilled riders. Supervise young or inexperienced riders. Never carry a passenger on vehicles meant for one rider. Do not operate under the influence of drugs or alcohol. Drive at speeds that are appropriate to trail conditions. Stay to the right on trails.
- Stay away from thin ice, open water and wetlands • Know the weather forecast. • Make sure headlights and taillights work properly. • Maintain safe distances between other riders. • Reduce your speed when riding at night.
- Yield to other motor vehicles and trail users.
   Young or beginning riders are encouraged to take a safety training course.

## SNOWMOBILE SAFETY

# De Cautious of Other Bikers

PRIVATE PROPERTY
NO TRESPASSING

highways.

Please respect private property and no trespassing signs.
Stay on trails.
Exercise extreme caution on all

lakes and streams. Obey

all state and local laws and ordinances. Do not operate snowmobiles/ATV's on county roads or state

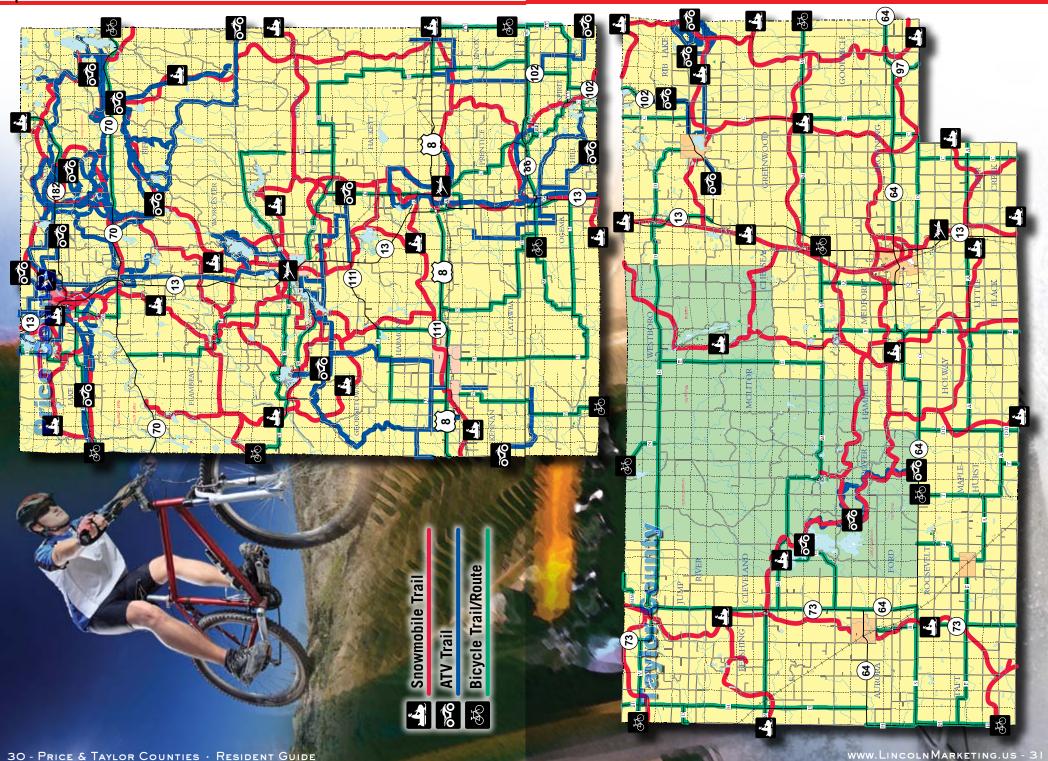

· Always wear a properly fitting bike helmet as most serious injuries are to the head. • Be sure your handlebars, seat and wheels fit snugly. • Keep your bike in good shape by checking and oiling your chain, making sure your brakes work properly and maintaining your tire pressure. • Always ride with both hands on the handlebars except when doing turn signals. • When leaving a driveway, curb or alleyway always stop and check for traffic in both directions. • Cross only at intersections. • Use the crosswalk to walk your bike across busy intersections and follow the traffic signals. • Never ride against traffic. Travel in the same direction as the cars. • Whenever you can, use bike routes and avoid busy streets. • Don't ride near parked cars as doors can open and cause accidents. • Obey all traffic signs and traffic lights. • When biking with friends, ride in a single file. • Always pass other bikers or pedestrians on the left and say "On your left!" to make your presence known. · Always use bicycle hand signals to alert traf-

• Do not consume alcohol or take drugs prior to or during your snowmobile trip. Doing so increases your chances of injury or death. Slow down and don't cut to the inside of the trail corners. It's dangerous and illegal. • If you snowmobile at night, don't override your lights. • Always use the buddy system. Never ride off alone. • Drowning is one of the causes of many snowmobile fatalities. Whenever possible, avoid the ice. • Wear sensible, protective clothing designed for operating a snowmobile. • Use a full size helmet, goggles, or visor to prevent injuries from twigs, stones, ice chips and other debris. • Avoid wearing long scarves. They may get caught in moving parts of the snowmobile. • Know the terrain you are going to ride. If unfamiliar to you, ask someone who has traveled over it before. • Know the weather forecast, especially the ice and snow conditions. • Be sure your snowmobile is in top-notch mechanical condition throughout the months of use. • Familiarize yourself with the snowmobile you are driving. Thoroughly read the manual that accompanies the snowmobile. • Do not pursue domestic or wild animals. That is not the conduct of a sportsman. Report such violations to the nearest law enforcement officer.

SIOW Down! Snowmobiling is fun. Going to the hospital isn't.

fic of your changing direction.

#### **PARENTS:**

- Teach your kids that an emergency is when you need help from a doctor, a police officer or a firefighter.
- Designate a safe place by your house that a child can go to if they need help right away.
- Have your kids memorize your address and phone numbers. They should also know your full name and where you work.

#### KIDS:

#### **FIRE SAFETY**

- If you or someone else is on fire remember to STOP, DROP and ROLL. Wrap a blanket on the person to help put out the fire.
- If there is a fire, leave the house as fast as you can! Crawl on the floor to avoid smoke and if the door is hot, don't open it - find another way out.
- Learn all the fire exits in your house. Assign a safe place outside for everyone to meet in case of a fire emergency.

#### **HOME ALONE**

- Never tell anyone that you are home alone.
- If someone calls and asks for your mom and dad, tell them "They cannot come to the phone right now, can you please call back later?"
- Do not answer the door, unless it is someone that
   you know your parents have okay'd
   them to come over.

#### FIRST AID FOR INSECT BITES/ANAPHYLAXIS & POISON SAFETY

#### **INSECT BITES/ANAPHYLAXIS**

Anaphylaxis is a severe allergic reaction from insect bites (latex, food and drug allergies can also cause Anaphylaxis). Typical symptoms include hives, the swelling of lips or eyes, swollen throat, drop in blood pressure, light headedness, confusion, nausea or diarrhea.

#### POISON PREVENTION

Teach your children about poison and how it can look like a food or drink. They should always ask an adult before eating or drinking anything. Have them learn

the poison control phone number: 1-800-222-1222 and keep it programmed or posted near all your phones. Here are some prevention tips.

**Lock up your poisons and medications.** Keep them out of the reach of children, lock them up if possible. Make sure your children understand that medicine is not candy.

**Follow directions carefully.** Read your labels. Be sure to use and store all poisons and medications properly according to recommendations.

#### Keep

#### your pets safe from household chemicals, too.

Don't allow pets near areas that have just been cleaned with chemicals, such as freshly mopped floors or bleached bathtubs and sinks. Clean up any antifreeze/coolant spills. Pets like the flavor but they can die if they ingest it. Store poisonous foods or plants in areas that your pets cannot access. Call your local emergency veterinary hospital if you believe your pet has been poisoned.

#### FIRST AID FOR BURNS & CHOKING

#### **BURNS**

**For minor 1st and 2nd degree burns smaller than 3" in diameter:** Cool the Burn. Run cool water over the burned area for 5 minutes, or until the pain diminishes. Never put ice on a burn!

#### Bandage the burn with sterile gauze:

It is important to use loosely wrapped gauze. This will avoid pressure and the bandage protects blisters. NEVER put lotions, vaseline, ointments or butter on burn. Do not break any blisters, which can cause infection.

#### Take Aspirin, Ibuprofen, Naproxe<mark>n or Acetaminop</mark>hen to relieve pain:

Minor burns usually heal with these basic treatments. Be aware for signs of infection which may include: increased pain, redness, fever, swelling or oozing. If symptoms develop, seek medical help. Avoid tanning the burned area for at least a year. Protect the area with sunscreen outdoors. Avoid giving aspirin to children.

For 3rd degree burns/all major burns - DIAL 911 DO NOT run cold water over large severe burns - this can cause shock. DO NOT remove burnt clothing. Check for signs of breathing/coughing/movement.

If there are no signs of breathing begin CPR.

Elevate burned areas above heart level, if possible.

Cover the burn(s) with cool, sterile, moist bandages, towels or cloth.

#### **CHOKING**

Most people clutch at their throats when choking, an obvious symbol for help. However, if a person isn't giving that signal, be alert for these indications. Inability to talk, difficulty breathing or noisy breathing, inability to cough forcefully, skin/lips/nails turning blue, loss of consciousness.

The Red Cross recommends a "five-and-five" method for first aid: First give five blows between the person's shoulders with the heel of your hand. Second, perform the Heimlich maneuver (abdominal thrusts) five times. Alternate between five back blows and five abdominal thrusts until the blockage is dislodged.

IN AN EMERGENCY, DIAL 911
