Located in the northeastern region of Florida, St. Johns County is a part of the United States. According to the 2020 census, the county had a population of 273,425. St. Augustine serves as both the county seat and the most populous incorporated city in the area. The origins of St. Johns County trace back to 1821 when Colonel Robert Butler acquired Spanish East Florida from Captain-General Colonel José M. Coppinger. Representing Major General Andrew Jackson, who served as the federal military commissioner for the Florida provinces (las Floridas), Butler held the powers of a governor and executed the authority of the Captain General as well as the Intendants of the Island of Cuba and the governors of those provinces. It was determined that all land east of the Suwannee River would be named St. Johns County.

St. Johns was officially created on July 21, 1821, alongside Escambia County (from the former West Florida province), just 11 days after Butler received Florida for the United States and five days subsequent to the incorporation of St. Augustine. The name “Saint John’s” originated from the Spanish mission known as San Juan del Puerto, which dates back to around 1580 (“Saint John of the Harbor”). In 1932, the U.S. Department of the Interior removed the apostrophe from the name, as it suggested ownership.

St. Augustine

St. Augustine, the county seat of St. Johns County, is a city situated 40 miles south of downtown Jacksonville along the Atlantic coast of northeastern Florida. Established in 1565 by Spanish explorers, it holds the distinction of being the oldest continuously inhabited European-initiated settlement in the present-day contiguous United States. The founding of St. Augustine took place on September 8, 1565, led by Spanish Admiral Pedro Menéndez de Avilés, who was also the first governor of Florida. He named the settlement San Agustín in honor of the day his ships, carrying settlers, soldiers, and supplies from Spain, first spotted land in Florida on August 28, coinciding with the feast day of St. Augustine. For over two centuries, the city served as the capital of Spanish Florida. When the British East Florida colony was created in 1763, it was named the capital, but Florida was returned to Spain in 1783. In 1819, Spain transferred Florida to the United States, and as a result of the Adams–Onís Treaty ratification in 1821, St. Augustine became one of two alternating capitals of the Florida Territory, alongside Pensacola. That same year, the Florida National Guard established its headquarters in the city. However, in 1824, the territorial government relocated and established Tallahassee as the permanent capital of Florida. St. Augustine belongs to the First Coast region of Florida and is part of the Jacksonville, Florida Metropolitan Statistical Area. According to the 2020 census, its population was recorded at 14,329.

St. Augustine Beach

Located in St. Johns County, Florida, St. Augustine Beach is a city that had a population of 6,803 according to the 2020 US census. It became incorporated in the year 1959.

St. Augustine history, culture, & celebration.

Nestled along the sun-kissed shores of Florida's Atlantic coast, St. Augustine is not just the oldest city in the United States; it is a vibrant tapestry of history, culture, and celebration. Founded in 1565, this charming city is steeped in rich traditions, making it a prime destination for festival enthusiasts year-round. With its cobblestone streets, historic architecture, and stunning waterfront views, St. Augustine provides a picturesque backdrop for a variety of lively events that bring the community together in joyful celebration.

The festival culture in St. Augustine is as diverse as the city itself, reflecting its unique blend of Spanish, British, and Native American influences. From the lively sounds of music festivals to the mouthwatering aromas of food fairs, each event showcases the talents and passions of local artists, chefs, and performers, while also honoring the city's storied past. Whether you're joining

the throngs of visitors during the iconic Nights of Lights, where twinkling lights adorn the city in a dazzling display, or immersing yourself in the historic re-enactments that transport you back in time, St. Augustine's festivals are a feast for the senses.

Throughout the year, the city comes alive with a calendar bursting at the seams with events. Each festival offers a unique experience, inviting both residents and visitors to participate in traditions that have been cherished for generations. As you explore St. Augustine's festival culture, you'll discover not only the spirit of celebration but also the warmth and hospitality of a community that takes pride in its heritage. So, whether you're a history buff, a foodie, or simply looking for a good time, St. Augustine's vibrant festivals promise unforgettable experiences that will leave you longing to return.

Health Benefits of the Outdoors

Spending time in nature offers numerous benefits for physical, mental, and emotional well-being.

Stress Reduction: Nature has a calming effect on the mind and body, helping to reduce stress levels. The peaceful surroundings, fresh air, and natural beauty can lower cortisol levels, decrease heart rate, and promote relaxation.

Improved Mental Health: Being in nature is associated with improved mood and mental health. Studies have shown that spending time outdoors can reduce symptoms of anxiety, depression, and other mental health disorders. Nature provides a sense of tranquility and perspective, which can help alleviate negative thoughts and emotions.

Increased Physical Activity: Nature encourages physical activity, whether it's hiking, biking, walking, or simply exploring outdoor spaces. Engaging in outdoor activities promotes exercise, which is essential for maintaining physical health and fitness. Additionally, being in nature often involves exposure to sunlight, which helps the body produce vitamin D and supports overall well-being.

Enhanced Creativity & Cognitive Function: Nature stimulates creativity and cognitive function. Research suggests that spending time in natural environments can improve problem-solving skills, boost creativity, and enhance concentration and focus. Nature provides a rich sensory experience that activates different parts of the brain, fostering cognitive development and innovation.

Connection with the Environment: Spending time in nature fosters a deeper connection with the environment and promotes environmental stewardship. When people experience the beauty and wonder of nature firsthand, they are more likely to develop a sense of appreciation and respect for the natural world. This connection can lead to greater awareness of environmental issues and a desire to protect and preserve natural habitats for future generations.

Overall, being in nature offers a multitude of benefits for both physical and mental well-being, making it essential for maintaining a healthy and balanced lifestyle.

SWEET ART GALLERY

CONTEMPORARY FINE ART

www.thesweetartgallery.com

904-686-ARTS(2787)

Ponte Vedra Beach | Sawgrass Village

Sweet Art Gallery

is a contemporary modern art gallery that opened its doors in Naples in 2005. The gallery is part of the new metropolitan Naples with its combination of luxurious downtown living in close proximity to the beaches and Fifth Avenue.

Over the last 19 years as an art dealer in Naples, Dede Sweet amassed one of the largest collections with one of the deepest artist rosters- 45 artists in all housed under one roof and now two.

Sweet Art Gallery now has a second location in Ponte Vedra Beach. "We are excited to be part of the fine collection of shops and restaurants that make up Sawgrass Village" says Sweet.

One of the gallery's standouts is Holly Manneck from Naples, her style can be referred to as New American/Pop Art. Holly has always been interested in culture and how it reflects in her art. Her works are a color filled blast of popular culture mixed with iconic images, advertisements, objects and ideas.

Other standouts include Brenda Belfield, a trained stained-glass designer who worked on the Washington National Cathedral. Vibrantly colorful abstract/cubist works take inspiration from the natural world with titles like "Before Dawn," "Waterfall" and "Starry Night." "She sees things through light and prisms and that reflects in her paintings. It's almost like they're glowing," says Sweet.

Or consider Al Razza, with a master's degree from the illustrious Rhode Island School of Design. The professor and artist opened his own art academy in Boca Raton, FL, and has shown solo at the Coral Springs Museum in Coral Springs, FL. "As soon as that show ended all of that art came to the gallery," says Sweet.

Both galleries offer In-home showings to allow customers to view the art in their own space before buying. We offer approachable galleries that assist clients in building collections of value. "The process of collecting art should be enjoyable and educational," says Sweet.

Visit the Sawgrass gallery and meet our gallery director Carrie McGregor, 310 Front St., Ste 875, Ponte Vedra Beach.

Fury Water Adventures offers signature Live Music Sunset Sails along with Dolphin Watch & Historical Harbor Sails, Private Charters & much more! Sail with Fury to create unforgettable memories on the serene waters surrounding the gorgeous and charming city of St. Augustine

LIVE MUSIC SUNSET SAIL

As the sun slowly sinks in the distance, you'll experience breathtaking views of the skyline and serene waterways. Our spacious catamaran provides unobstructed panoramic views that are perfect for catching stunning photos of the vibrant hues of the Florida sunset.

Indulge in complimentary beer, wine, soda, water, margaritas, champagne, and light snacks, while enjoying live performances by some of the city's favorite musicians! Join hands with someone special and let the music sweep you away. Make memories to last a lifetime, sailing on a 65-foot catamaran through the serene waters of our historic city.

Leave your worries behind as you take in the beautiful city of St. Augustine basked in the glow of sunset.

DOLPHIN WATCH & HISTORICAL HARBOR SAIL

Sail through the historic harbors near Vilano Beach, as we seek out some of St. Augustine's most charming residents, and the local dolphin population. We'll view local bottlenose dolphins as they play, feed, and engage in their natural behaviors. Guests will enjoy unobstructed views of the nation's oldest city from the perfect vantage point - on the water. Fury's state-of-the-art 65' Sailing catamaran provides 360-degree views, as guests roam the spacious deck and open air cabin enjoying complimentary sodas, water, beer, wine and light snacks.

This adventure is perfect for cosmopolitans and nature enthusiasts alike, seamlessly blending the historical allure of St. Augustine with mother nature's natural wonders.

When you choose Fury Water Adventures in St. Augustine, you know you're getting exceptional service, a dedication to your satisfaction, and an experienced, friendly crew to make it all happen. Our cutting-edge catamaran makes the ride smooth and comfortable, and we put safety first in all we do so you can have a memorable, safe adventure.

WHEELCHAIR ACCESSIBLE SENIOR TRANSPORTATION

My name is Tracey Kuczinski and I am the owner/operator of Strictly Senior Services, a concierge wheelchair transportation service. I assist seniors and their families with short and long-distance travel giving seniors back their independence while also giving them the support they need while on the road. Whether it is to a doctors visit or going out for a special occasion with family you will always have a true senior advocate with you the entire time. Many times, I have families that live out of state and need me to be their eyes and ears while taking their loved ones to doctors' visits and that is what differentiates me from just a transport company.

I am not just a driver, I have been a Senior Housing Advocate for over 25 years, I have a Bachelors in Geriatric Health Administration, and am an Occupational Therapist but more than all of that what is most important is that I am passionate about what I do and I believe I bring that passion with me on every ride with every client.

Some of the rides that I have done to give you an example of what I do.

- *took an elderly gentleman in his wheelchair up to Jax for a procedure that took over 3 hours and stayed there with him the entire time. His family lives out of state and had peace of mind knowing someone was with him throughout the procedure and then rather than just dropping him off at home I brought him in and made sure he was set up for a restful night.*
- *I have clients who sadly the husband has ALS and I take them out to restaurants once or twice a month giving him a chance to get out and enjoy the things they used to do before he was wheelchair bound.*
- *I have done many long distance travels for seniors moving down here to be closer to family via ground and air, always attending to any and all the needs that may arise in route.*

My promise to anyone that is in need of a service like mine is that you or your loved one will always be treated with dignity and respect we all deserve!! Please feel free to reach out to me anytime at 904-481-6786 or at Tracey@StrictlySeniors.org

Beach Flag WARNING COLORS

Beach flags are commonly used to communicate important information to beachgoers. The color-coded flag system may vary slightly from one location to another, but the following are commonly recognized color meanings:

Blue Flag: This flag is used to signify that lifeguards are on duty and that the area is being actively monitored for safety.

Green Flag: Indicates that it is safe to swim. The water conditions are generally calm, & there is a low risk of hazards such as strong currents or high waves.

Yellow Flag: Caution is advised. This flag suggests that there may be some hazards present, such as moderate surf or currents.

Red Flag: A red flag indicates high hazards & potentially dangerous water conditions. It is a warning that strong currents, high surf, or other dangers are present. It is advised to stay out of the water.

Double Red Flags: This is a more severe warning, & it typically means that the beach is closed to the public. Dangerous conditions, such as strong rip currents or severe weather, pose a significant threat.

Purple Flag: This flag is used to indicate the presence of dangerous marine life, such as sharks or jellyfish. It is advised to exercise caution.

Rip currents are powerful, narrow channels of fast-moving water that can pose a danger to swimmers and surfers. Getting caught in a rip current can be frightening, but knowing how to recognize and handle them can help you stay safe. Here's how to avoid or get out of a rip current in the ocean:

1. Stay Calm & Don't Fight the Current:

If you find yourself caught in a rip current, stay calm and try not to panic. Remember that rip currents do not pull swimmers underwater; instead, they pull them away from the shore. Avoid fighting against the current by swimming directly back to shore, as this can lead to exhaustion.

3. Swim Parallel to the Shore:

If you feel confident in your swimming abilities, swim parallel to the shoreline instead of trying to swim directly back to shore. Rip currents are typically narrow, so swimming parallel to the shore can help you escape the pull of the current. Once you're out of the rip current, you can then swim back to the shore at an angle.

5. Seek Assistance if Needed:

If you're unable to escape the rip current on your own or if you're feeling exhausted, continue to signal for help and wait for assistance from lifeguards or other beachgoers. Don't hesitate to call for help if you need it, as prompt action can prevent a dangerous situation from escalating.

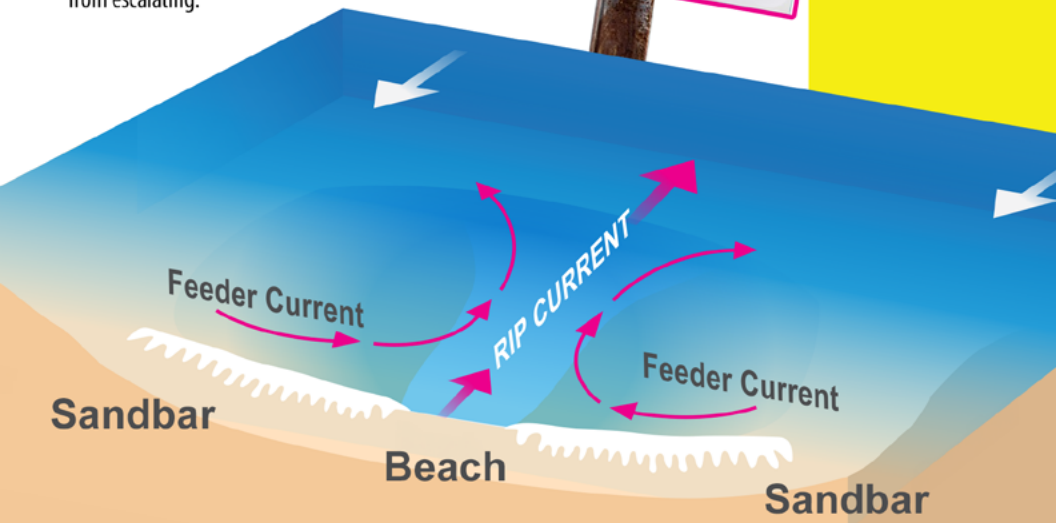

2. Float & Conserve Energy:

If you're unable to swim out of the rip current, conserve your energy by floating or treading water. Signal for help by waving your arms and calling for assistance if you see lifeguards or other beachgoers nearby. Most rip currents are narrow, and you will eventually be carried out of the current and into calmer waters.

4. Use Waves to Help You Escape:

Wait for waves to push you towards shore and use them to assist your escape from the rip current. Time your movements with the breaking waves, and use the momentum to swim towards the shore. Be patient and persistent, and don't exhaust yourself by attempting to fight against the current.

Always swim at beaches with lifeguards present, heed warning signs, and follow any instructions or advice given by local authorities.

Hyperbaric Health Services St. Augustine

Our team of professionals at Hyperbaric Health Services St. Augustine is dedicated to providing you with the highest quality medical-grade Hyperbaric Oxygen Therapy (HBOT) as well as the latest in other advanced wound care modalities.

904-342-5002

A PATHWAY TO HEALING • COMPASSIONATE CARE • EXCEPTIONAL OUTCOMES

HyperbaricStAugustine.com

HYPERBARIC HEALTH SERVICES ST. AUGUSTINE: A SANCTUARY OF COMPASSIONATE CARE

In the heart of historic St. Augustine, Hyperbaric Health Services stands as a beacon of hope and healing. Known for its professional excellence and compassionate approach, this facility has become a cornerstone in the community, offering a unique blend of advanced medical treatments and heartfelt patient care. Hyperbaric Health Services specializes in hyperbaric oxygen therapy (HBOT), a treatment that enhances the body's natural healing processes by inhaling 100% oxygen in a total body chamber, where atmospheric pressure is increased and controlled. This innovative therapy is used to treat a variety of conditions, from chronic wounds and radiation injuries to neurological disorders and carbon monoxide poisoning. But what truly sets Hyperbaric Health Services apart is its dedicated team. The staff here are not only highly trained professionals but also individuals who bring empathy and understanding to their roles. Patients and their families often speak of the remarkable kindness and attentiveness they experience from the moment they walk through the doors.

PROFESSIONAL EXCELLENCE

The team at Hyperbaric Health Services St. Augustine boasts a wealth of expertise. Each staff member is rigorously trained and continually updated on the latest advancements in hyperbaric medicine. This commitment to professional development ensures that patients receive the highest standard of care. From the meticulous protocols followed during treatments to the comprehensive aftercare plans, every aspect of the patient experience is handled with precision and care.

A COMPASSIONATE APPROACH

While technical proficiency is paramount, it is the compassionate nature of the staff that leaves a lasting impression on patients. The team understands that undergoing medical treatments can be daunting, and they go above and beyond to provide a reassuring and supportive environment. Patients are treated with dignity and respect, and their concerns are always addressed with empathy. One patient, Tina Barron, recounts her experience: "From the first consultation, I felt like I was in good hands. The staff took the time to explain everything in detail and made sure I was comfortable throughout the process. Their kindness made a world of difference during a challenging time."

A WELCOMING ENVIRONMENT

The facility itself reflects the ethos of care and comfort. Designed to be both state-of-the-art and welcoming, Hyperbaric Health Services St. Augustine is equipped with the latest technology. The ambiance is calming, with thoughtful touches that make patients feel at ease. This holistic approach to healthcare – addressing both the physical and emotional needs of patients – is a hallmark of the facility.

COMMUNITY ENGAGEMENT

Hyperbaric Health Services St. Augustine is deeply embedded in the local community. The staff regularly participate in community events and health fairs, offering educational sessions on the benefits of HBOT and general health and wellness. This outreach underscores their commitment to not only treating patients but also contributing to the overall well-being of the community.

A FUTURE OF HEALING

As Hyperbaric Health Services St. Augustine continues to grow, the focus remains on providing exceptional care. The staff's unwavering dedication to professionalism and compassion ensures that every patient receives personalized treatment tailored to their specific needs. This patient-centric approach has earned the facility a reputation for excellence and a loyal following of patients who have experienced life-changing improvements in their health.

IN CONCLUSION, **HYPERBARIC HEALTH SERVICES ST. AUGUSTINE** is more than just a medical facility; it is a sanctuary where healing happens in an environment of care and compassion. The professional and compassionate staff are the heart of this establishment, making it a trusted place of healing for the St. Augustine community and beyond.

Visionary Eyecare At Murabella was established in 2011, by Dr. Joanne Reed O.D. Her vision was to have a little family Optometrist office to serve the community of St. Johns County. She had a mission, and that mission was to focus on changing lives through Innovative Eye Care.

The mission of Visionary Eyecare is to provide the highest quality vision care in a comfortable, friendly, and professional environment. Our patients eye care needs are our highest priority. We aim to provide the resources for a lifetime of healthy eyes and excellent vision with compassion, courtesy, honesty, and respect.

Within 4 years, the practice needed another doctor to help with the care of the patient base she acquired. In 2015, she brought on Dr. Ashley Noegel O.D. to help her vision grow even more. There they both worked together to provide the highest quality in Routine Vision Care and Medical Eye Care. Their goal was to help the patient feel as comfortable and understanding of all their eyecare needs. With the growing community in St. Johns County Dr. Monica Vieth O.D. joined the practice in 2022. They continue to build lasting relationships with patients.

The growth of Visionary Eyecare At Murabella has Dr. Reed in amazement to where she says, "All I ever wanted was just a small Optometry office, I am so grateful for every patient we have the opportunity to help". She now can enjoy her family after so many years of the business in the making by trusting Dr. Ashley Noegel O.D. and Dr. Monica Vieth O.D. to keep caring about the vision of Visionary Eyecare At Murabella.

So, You have decided to get a pet... NOW WHAT??

Commitment and Time: Owning a pet is a long-term commitment. Before bringing a pet home, consider your lifestyle and ensure you have enough time to spend with your pet. Dogs, cats, and many other animals require attention, exercise, and mental stimulation.

Choose the Right Pet for Your Lifestyle: Different pets have varying needs, temperaments, and activity levels. Research and select a pet that fits well with your lifestyle, living situation, and family dynamics. Whether you choose a dog, cat, bird, fish, or any other animal, make sure you can provide for its specific needs.

Proper Nutrition: Feed your pet a balanced and nutritious diet suitable for their species and age. Consult with a veterinarian to determine the best food options for your pet's health and well-being.

Regular Exercise: Most pets need regular physical activity to stay healthy and happy. Engage in play-time and exercise with your pet daily, as it helps prevent obesity and provides mental stimulation.

Routine Veterinary Care: Schedule regular check-ups with a veterinarian to monitor your pet's health, get necessary vaccinations, and address any concerns. Early detection of health issues can often lead to better outcomes.

Spaying/Neutering: Consider spaying or neutering your pet if you don't plan on breeding. This helps control the pet population and can have health benefits for your pet.

Training and Socialization: Properly train your pet to follow basic commands and have good manners. Socialize them with other animals and people from a young age to prevent behavioral issues later on.

Provide a Safe Environment: Ensure that your home and yard are safe for your pet. Remove hazards, keep toxic substances out of reach, and provide appropriate shelter from extreme weather conditions.

Grooming: Regular grooming is essential for most pets. Brush their fur, trim nails, and clean their ears as needed to keep them comfortable and healthy.

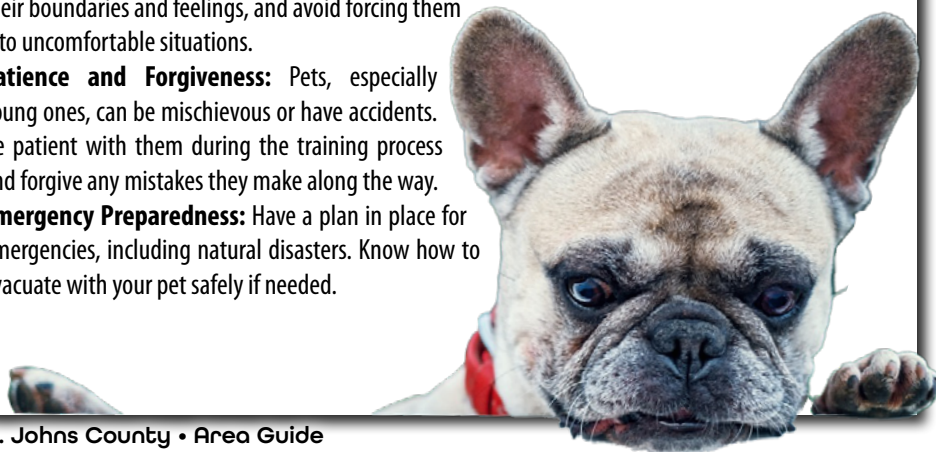

Identification and Microchipping: Keep identification tags with your current contact information on your pet's collar. Consider microchipping your pet as an extra measure to ensure they can be identified if lost.

Love and Attention: Pets thrive on love and attention from their owners. Spend quality time with your pet, provide affection, and build a strong bond.

Respect and Understanding: Learn to understand your pet's body language and behavior. Respect their boundaries and feelings, and avoid forcing them into uncomfortable situations.

Patience and Forgiveness: Pets, especially young ones, can be mischievous or have accidents. Be patient with them during the training process and forgive any mistakes they make along the way.

Emergency Preparedness: Have a plan in place for emergencies, including natural disasters. Know how to evacuate with your pet safely if needed.

If you have just rescued / adopted a new fur baby, please it is important to remember the 3-3-3 RULE:

3 Days:

In the first 3 days being in its new home, they will be feeling overwhelmed, scared & unsure of what is going on. They may also be uncomfortable being "themselves", and may not want to eat or drink. They may want to "shut down" or hide under a bed or in a crate, and they will test boundaries.

3 Weeks:

At this point, they may be a lot more comfortable & settling in. Learning a new routine can be overwhelming, so please be patient. By now they may have figured out the new environment & accepted that this may be their FURever home. Their personality traits will start to show, as well as any behavior issue that may be present.

3 Months:

For most fur babies, 3 months is enough time to finally be comfortable and begin to build trust and a true bond. A sense of security may be present & a set routine will help this process.

Please know that this is not the rule with every rescued or adopted pet, as some may need 6 months to a year to adjust & adapt, depending on MANY factors. Age of animal, what type of an environment did they come from?

HURRICANE SAFETY

Top Five Tips

If authorities issue evacuation orders, follow them promptly. Delaying evacuation can put your life and the lives of emergency responders at risk. They have the most up-to-date information on the storm and can provide guidance on the safest course of action. Remember that each hurricane is unique, so it's essential to stay informed and adapt your plans accordingly. Preparedness and early action are key to minimizing risks and ensuring the safety of yourself and your loved ones during a hurricane.

- 1. STAY INFORMED**
- 2. SECURE YOUR HOME**
- 3. FOLLOW EVACUATION ORDERS & GUIDELINES**
- 4. EMERGENCY SUPPLIES**
- 5. EVACUATION PLANNING**
